

as it seems: Matt Ridley, *The Rational Optimist: How Prosperity Evolves* (London: Fourth Estate, 2010)

- In this book I have said little about classical political philosophy. For a take on what the ancient Greeks might be able to tell us about ecology and justice: Melissa Lane, *Eco-Republic. What the Ancients Can Teach Us about Ethics, Virtue and Sustainable Living* (Princeton, NJ: Princeton University Press, 2011)
- An excellent history of attempts to find a truly global politics over the last two hundred years, including the chequered history of ideas of a world state: Mark Mazower, *Governing the World* (London: Allen Lane, 2012)

Conclusion

- For the long version of what I think is the relationship between democracy and catastrophe, past, present and future: David Runciman, *The Confidence Trap: A History of Democracy in Crisis from the First World War to the Present* (Princeton, NJ: Princeton University Press, 2013)
